

Gateway

*PMDV1710G01****

1 Brief description

The gateway connects a UPS or a master-slave system with several UPSs to a PC. The software installed on the PC allows monitoring and configuration tasks to be performed on the UPSs.

The gateway has the following properties:

- 4 LEDs for status display
- Various interfaces for the UPS or the PC
- Supports SNMP and Modbus TCP/IP

2 Standards and regulations

EMC	2014/30/EU (EMC Directive) EN 55011 Limit Class B Group 1 EN 61000-6-2 EN 61000-6-4
-----	--

3 Technical data

Input	
Rated input voltage range	10 – 60 V DC
Default IP	192.168.178.60
Power loss	~ 1 W
General	
Protection rating of the enclosure	IP20
Pollution degree	2
Dimensions (H x W x D)	99 mm x 45 mm x 114 mm
Weight	0.2 kg
Operating temperature / storage temperature	0°C – +50°C
Relative humidity	≤95% non-condensing
Max. elevation above sea level	2000 m
